

Digital Media and Design
Bachelor of Science
2025-2026

General Areas of Service: A Bachelor of Science in Digital Media and Design, students will be able to build a media foundation by obtaining the skills and focused on media, law, filmmaking, screenwriting, audio production, graphic design, and web design.

BS in Digital Media and Design will set students up for success in the expansive field of the media world, which is growing at an exponential rate. Students majoring in Digital Media and Design can go into excellent career paths from video production, animation, web development and graphic design.

Professional Training: A strong emphasis in understanding and practicing the theory and skills of excellent filmmaking is important to do well in the film industry. Students receive valuable personalized instruction and advising oriented toward helping them recognize and reach their goals as filmmakers. Graduates have a thorough knowledge of how filmmaking works and are qualified to use their skills in a variety of professional settings ranging from Hollywood to businesses and social media to church media and events. With an increasing need for high-quality visual media, the training offered in this program positions students to serve in a variety of ways. As online interaction becomes an important part of the life of most people, filmmaking skills are becoming more and more necessary to help create effective communication.

Job Outlook: According to the Bureau of Labor Statistics (BLS), "Overall employment of web developers and digital designers is projected to grow 23 percent from 2021-2031, much faster than the average for all occupations. (See www.bls.gov) For Producers and Directors, the BLS states that the "employment is projected to grow 24 percent from 2020 to 2030, much faster than average for all occupations." See www.bls.gov Web Developers and Digital Designers.

Earnings: Bureau of Labor Statistics reports Digital Designers Median pay in 2021 as \$78,300 per year.
